

## THE DAILY BEE.

## COUNCIL BLUFFS

OFFICE, NO. 12, PEARL STREET.

Delivered by carrier in any part of the city at twenty cents per week.

H. W. TILTON, Manager.

BUSINESS OFFICE, NO. 44.

PHONE EDITOR, NO. 25.

MINOR MENTION.

N. Y. Plumbing Co.

New spring goods at Reller's, tailor.

The city council is to meet next Monday evening to consider some important matters.

Permit to wed was yesterday granted Peter Sievers and Lizzie Rosdett, of Minden.

The jury was obtained in the Cross case at Red Oak yesterday, and the trial is proceeding.

Architect Ward is drawing plans for a residence to be built by H. C. Cory at the corner of Sixth avenue and Ninth street.

Company A, Fifth regiment, known as the Dodge Light Guards, give a ball on the Fourth of July, as does also the Knights of Labor.

The art display at St. Francis academy will be made Monday and Tuesday.

The graduating exercises will be held Tuesday evening at 7 o'clock. Admission 50 cents.

Emil Schurz, the only young man in the class graduated last night, has an elegant gold watch and chain, the gift of his father.

Edward Harrigan and his New York company are to appear at the opera house on Thursday evening, June 30.

Mr. Harrigan will appear in his original character, Dan Mulligan, in one of his most successful plays, "Cordelia's Aspirations."

The mortar for displaying the day fireworks at the driving park on the river is on exhibition in front of the Mueller music company's store on Main street, they having the contract for furnishing the day and night fireworks of the association and also the Knights of Labor.

The A. O. U. and Catholic Knights of Council Bluffs have engaged the Fifth regiment band, and also made arrangements with the Union Pacific railway for half fare rates on the 1 o'clock Sunday dummy, to attend the laying of the corner stone of St. John's collegiate church at Omaha.

The brick building recently occupied by Mike Nolan's saloon on Broadway is being thoroughly overhauled and greatly improved. The first floor is to be occupied by Charlie Heiler as a barber shop and bath room. The upper floor is to be used by Jim Wilson as a club room. The front of the building as well as the interior is to be improved. A new entrance will be made in front leading to the second floor.

Major H. C. Barnes has a line of samples of G. A. R. cards and for the convenience of the old soldiers who wish to take cards with them to the Grand Encampment at St. Louis, he will allow them to make their own selection, and furnish them 100 cards at the wholesale price. Pryor's Bee job office has agreed to print all orders free. Pryor never has charged anything for "Old Soldier" printing, and he says he adheres to his rule in this instance.

Drs. Hanchett &amp; Smith, office No. 12, Pearl st., residence 120 Fourth st. Telephone No. 10.

J. W. &amp; E. L. Squire make beautiful abstracts of title and deserve the success they are enjoying.

Spirit Lake Sleeper.

Commencing Saturday evening, June 25, a Pullman palace sleeper will leave Council Bluffs daily at 7:10 p. m. for Spirit Lake via the Sioux City route, arriving at Hotel Orleans at 7:30 a. m. for breakfast.

Excursion tickets now on sale and berths reserved at ticket offices, 421 Broadway and depots.

For Sale.

Two drug stores in central Nebraska. Good thriving towns. Will invoice from \$1,500 to \$2,500. Apply to

HAILE, HAAS &amp; CO., Council Bluffs, Iowa.

Personal Paragraphs.

M. S. Stout, owner of the Ogden, has gone to Texas on a business trip.

T. McK. Stuart, a prosperous Clarinda farmer, was at Red Oak yesterday.

Harry Birkinbine, of the water works company, is enjoying a brief visit from his brother.

Tom Mulvihill, the Omaha bill poster, was in the city yesterday assisting the Barrett show people in putting up their bills.

I. M. Hay is still suffering from the accident which occurred some weeks ago, but is recovering as rapidly as could be expected.

Seth F. Haskins, a former resident of this city, a conductor on the K. C. road, and at present ticket agent at Peoria, is in the city.

Captain J. T. Anderson, of the merchant police, expects his wife home this evening. She has been visiting friends in Castana, Ia., for a month past.

Mr. Hobson, who has been serving as local editor of the Globe, left yesterday morning for his home in Wisconsin, Me. Although a resident of the city for many months only, he has won many friends, who regret that his stay here should be so brief.

One thousand head of one, two and three-year-old steers for sale. Will give credit to reliable parties. Enquire of A. J. Greenanmeyer, Pacific House.

For rupture or hernia, call and get Dr. Rice's new invention. It makes a man of you in five minutes. No pain. No. 11 Pearl street.

On Saturday afternoon, July 2, at 3:30 o'clock, the owners of Lakeview addition will put on sale at auction one hundred lots. This beautiful addition lies between Wray's and Mark's landing, overlooking Lake Manawa. It is on the new motor line, on the best drive to the lake, and only two miles from the postoffice. These lots will doubtless sell like hot cakes.

Mynter's Sand.

W. A. Mynter has for a long time known that there was good building sand upon his place near the city, but it has been a matter of doubt as to the quantity, and the ease of procuring it. In digging out dirt for the approaches to the Union Pacific bridge the discovery has been made that there is a fine sand bank upon his land. From the indications thus far apparent it seems that the bed is fully fifty feet thick. This discovery naturally is a glad one for Mr. Mynter, and he was yesterday feeling quite jubilant about it. If it proves as great a find as now appears, there seems to be a little fortune in it. The sand is where it can easily be got, and the facilities are such as to render it within reach of both the Omaha and Council Bluffs markets. There is a great demand for such sand in Omaha, and there will be a demand for it on this side, in paving lower Broadway, and in making other improvements within easy reach of this bank. Mr. Mynter is to be congratulated.

Latest improved gasoline stoves at N 104 Main street. W. A. Wood.

## FINDING MINERAL WEALTH.

Favorable Prospects For Iron Mines, As Well As Coal, Near the City.

POINTS ABOUT PAVING.

Opening a Sand Bank—Work on the Club Rooms—Graduating Exercises of the High School—Personal Mention.

The Club.

The Club is progressing finely. A large number of business men and professional gentlemen have enrolled themselves on the list, and the rooms over the First National bank and the Manhattan are being fitted up. The partitions are all in now and the plastering and other work will be pushed right along. The front room on Broadway is a spacious one for a parlor. Back of this is a large billiard parlor, then an office, with cloak room, closets, toilet rooms, etc. In the rear is a kitchen with store room, pantry and other needfuls. All of these rooms open into the hallway and into each other. In the plumer building and connecting with these rooms are two large dining rooms. The rooms will be furnished just as soon as they are ready and the furnishings are to be elegant. It is the purpose of the Club to have all the needed facilities for happily entertaining any visitors who come to the city, as well as provide for themselves a pleasant place for social converse. No residents of the city will be allowed the privileges of the rooms except such as are members, and the members cannot be residents of the city. The Club is a place for the city to have all the needed facilities for happily entertaining any visitors who come to the city, as well as provide for themselves a pleasant place for social converse. No residents of the city will be allowed the privileges of the rooms except such as are members, and the members cannot be residents of the city. The Club is a place for the city to have all the needed facilities for happily entertaining any visitors who come to the city, as well as provide for themselves a pleasant place for social converse. No residents of the city will be allowed the privileges of the rooms except such as are members, and the members cannot be residents of the city.

Paving Blocks.

At the city clerk's office there is on exhibition some of the cedar blocks taken from Oakland avenue. This paving was laid about three years ago, and it was supposed that it would last for ten years. It is claimed that in taking up some of it to lay water pipes the discovery was made that while the upper surface of the blocks looked all right, the blocks were badly rotted on the under side. Several of these blocks are being shown as samples of the rapid decay of wooden pavements. Before any more such paving is laid there should be some official and thorough examination to decide whether the Oakland avenue paving is really going to decay so rapidly as is claimed, or whether the blocks shown as samples are the exception, blocks overlooked by the inspectors when the paving was laid. If the fault is with the inspectors this should be shown up, and if with the paving itself it certainly is a still more important matter.

The residents and property owners on Fourth street are getting impatient for the paving of that street. The sewer now on that street, between Broadway and Willow avenue, seems to be the chief cause for delaying the work. The property owners want the paving, and are ready to pay for it, but there seems to be some hesitancy on the part of the authorities because of the sewer. This sewer is so constructed that it requires cleaning out after every rain, as it fills with mud. It is claimed that this is due to the faulty attempt to run water up hill, and that the sewer needs to be rebuilt. There should be a practical sewer before the paving is done, but the property owners on that street do not see how the sewer will be any better a year from now, than now. They say that if a new sewer must be built then it should be built at once, so that the paving can be done. They want the paving. Streets are being moved which do not have one-third the travel and this one of the most important thoroughfares in the city, is left worse than a country road. It is proposed by some to have a portion of this street paved with brick, as to thoroughly test that mode of paving, there being so much said now-a-days in favor of it. If brick paving should be found to be practical, it would be a great thing for Council Bluffs, for instead of sending so much money out of the city for paving material, it would be kept here, and the money expended for Council Bluffs material and labor.

For female diseases and chronic diseases of all kinds, call on Dr. Rice, No. 11 Pearl street, Council Bluffs, Iowa.

Finding Coal And Iron.

Some pieces of iron ore are being exhibited by Justice Schurz, W. A. Mynter, F. J. Day and others, they being samples of a find about nine miles south of the city. The matter is being enthusiastically but quietly discussed, and what its future revelations may be no one can tell definitely yet. The place which has been attracting so much attention consists of about eighty acres, in the edge of the bluffs less than ten miles from the city. The owner of this land is a blacksmith, and he has had a little forge for some time. There is quite a romantic sort of a story about the way he has been supplying his forge with coal. A short distance from the forge, in the side of the bluffs, is his coal cellar. It is one which nature has filled. There he a long time since discovered a little coal cropping out of the surface, and he has been digging away at this, as his forge needed a supply, and has been following up the vein until he has dug quite a distance into the bluff. The vein is a very light one and not worth working except for the limited needs of his little forge. The presence of coal there has been known for some time, but it has not been supposed that it existed in sufficient quantities to pay to work.

Lately a new revelation is made. It is found that the bluff is full of a rocky, lava-looking formation, which has excited attention. Some of it bore evidence of being full of iron, and on specimens being sent away for analysis it appears that it is 65 per cent iron. The matter is being looked into more carefully, for there is a belief that there is enough iron to pay to work, and if so, it would prove a great enterprise indeed. The supposed iron ore is plentiful and the assays thus far show it to be rich.

It is thought there are larger veins of coal than the one being used for the little forge. The nature of these can only be determined by future development. From the examination thus far made it appears that below the supposed iron ore there is a strata of limestone, and below that is supposed to be the other veins of coal, if there is any coal at all. Those who have been conversant with the facts, are quite confident that there is a good show for both coal and iron to be developed there. The pieces of ore which are exhibited indicate that the discovery is more than mere talk, and that the hopes of what may be developed are more than mere day dreams. The grounds are to be examined carefully, and doubtless some money will be expended by the owner in developing them sufficiently to satisfy him and the public concerning the value of the find.

Received New Diplomas.

The graduating exercises of the Council Bluffs high school are always events of great interest, and the interest seems increasing year by year. The class graduated this year consists of an even dozen and only one gentleman among the twelve, Emil Schurz, son of Justice N. Schurz. Mr. Schurz has acquitted himself nobly in his studies, and last evening his graduating oration on "Life" showed that his studies had not been in vain. The young ladies of the class on a variety of variety of topics, the names and topics being as follows:

Miss Mary Munson—"Hidden Forces."

Miss May Kilmore—"Heroes, Past and Present."

Miss Josie Clausen—"Rise and Fall."

Miss Lottie Pile—"The Golden Age."

Miss Iva Hattenhauer—"Xantippe."

Miss Nannie Hardin—"Mint, Arise and Cummin'."

Miss Ada Ainsworth—"The Religion of Shakespeare."

Miss Dora Glass—"Love of the Beautiful."

Miss Mira Briggs—"American Literature."

Miss Mary Finley—"Woman."

Miss Clara Southwell—"Tongues."

Miss Munson has the honor of the salutatory, and Miss Southwell of the valedictory.

Rev. Dr. Phelps offered the opening invocation.

The music of the evening was varied, and was given by the Fifth regiment band, which is so rapidly winning popularity.

Master Willie Murphy gave a very pleasing concert solo, Prof. Lippert accompanying on the piano. This was Master Murphy's first appearance in public, and his debut was a successful one, the audience giving him enthusiastic applause.

The stage was very prettily set in representation of a grove, and made more bowery by the graceful but not elaborate decorations of vines and flowers. The young ladies were all dressed in white with flowers for ornaments.

The audience was one of the largest ever gathered in the opera house. Every seat was taken and standing room was well occupied, although the programme was necessarily a long one. The orations had in addition to other merits the rare one of brevity. The class acquitted itself in a manner to reflect credit upon the educational system of the city. Individually each was rewarded by numerous bouquets and baskets of flowers besides a generous applause from the audience.

To Be Here To-Day.

The state railway commissioners are to arrive on this morning's train to consider the difficulties which have arisen between the Manawa motor railway and the several railway companies whose tracks are to be crossed by the motor line. It is hoped and believed that matters can be so arranged that no great delay will be caused in the construction of the motor line.

Belle of Bourbon Ten-year-old whisky.

Equal parts of sweet milk and Belle of Bourbon whisky will in many cases cure consumption, and will benefit any consumptive. Sold by bottle everywhere. \$1.25 per quart. Take no substitute.
